- The Hyundai DHY16KSE-3 is a three phase diesel generator with a maximum output of 16kVA. Designed for domestic or professional use, the DHY16KSE-3 is powered by a Hyundai diesel engine and is equipped an AVR alternator to produce clean energy. This means that any sensitive electronic equipment, such as televisions, PCs and laptops, can safely be powered by the DHY16KSE-3.
- The DHY16KSE-3 can be started manually by using the key, or connected to an ATS (Automatic Transfer Switch) system. An ATS system will automatically detect a loss of power from the mains, turn your DHY16KSE-3 on automatically, and then turn it off again when power returns from the mains. Housed in a weather-proof "silenced" canopy, the DHY16KSE-3 produces only 65dB(A) @ 7 metres which makes it a quiet standby generator which won't interrupt you at home or work.
