DESCRIPTION

The HY10000LEK is a powerful yet easily portable 8.0kW / 10kVa* open frame generator from Hyundai. Designed for both home and commercial use the HY10000LEK is powered by the new 459cc / 16hp single cylinder Hyundai 4-Stroke engine. Built for the most demanding of jobs the HY10000LEK is an extremely reliable generator.

The easy electric Key start function makes starting the generator simple. There is also a recoil start system to ensure you are never left without power. The generator recharges its own battery when in use.
