

MODEL OVERVIEW	
MANUFACTURER	HYUNDAI
MODEL	HYAC30100BD
TYPE	AIR COMPRESSOR
MOTOR SIZE	3HP, 230V
MAXIMUM PRESSURE	8 BAR

HYAC2024F AIR COMPRESSOR

The **Hyundai HYAC30100BD** is a portable V-twin cylinder direct drive air compressor that is great for DIY and trade applications. It delivers 11.1 CFM, which provides the power you need for a wide range of tasks—such as spray-painting, operating air tools for inflating tyres and inflatables.

Designed with safety in mind, it features an automatic on/off control switch and a built-in relief valve. Twin air outlets with dual gauges allow you to run two tools simultaneously, helping you get more done in less time.

Built for mobility, the compressor is mounted on heavy-duty wheels making it great for getting around your garage or outdoor workspace. Maintenance is simple, thanks to accessible external air filters that can be changed quickly.

Materials and specifications are subject to change. Specification sheets are current as of 30/6/2025.

WEIGHT	76kg

*1 Year Limited Warranty: This warranty covers defects in materials and workmanship under normal use and maintenance for a period of one (1) year from the date of purchase. It applies only to the original purchaser and is non-transferable.

The warranty does not cover damage caused by misuse, neglect, accident, improper installation, unauthorised repairs or modifications, normal wear and tear, or use of non-approved oils. Consumable parts such as filters, belts, valves and cosmetic wear are not covered.

The air compressor must be serviced at regular intervals as specified in the user manual. Proof of purchase and service records may be required. As the Australian distributor, Genelite reserves the right to repair or replace defective parts at its discretion.
