HYAC2024F AIR COMPRESSOR

The **Hyundai HYAC65100BD** is a 6.5HP petrol compressor built to handle demanding jobs with ease. Ideal for both workshop use and offsite applications, its petrol-driven design gives you the flexibility to work wherever it is needed.

The 11 CFM output and 116 PSI pressure gives ample capacity to run multiple tools at once, while the large 100L tank supports extended, continuous operation.

Perfect for sanding, painting, and powering impact wrenches or air hammers, the belt-drive system ensures quieter operation and simplifies maintenance compared to direct-drive models.

Heavy-duty wheels make transport easy, while vibration-reducing mounts enhance stability and minimise noise.

Materials and specifications are subject to change. Specification sheets are current as of 30/6/2025.

*1 Year Limited Warranty: This warranty covers defects in materials and workmanship under normal use and maintenance for a period of one (1) year from the date of purchase. It applies only to the original purchaser and is non-transferable.

The warranty does not cover damage caused by misuse, neglect, accident, improper installation, unauthorised repairs or modifications, normal wear and tear, or use of non-approved oils. Consumable parts such as filters, belts, valves and cosmetic wear are not covered.

The air compressor must be serviced at regular intervals as specified in the user manual. Proof of purchase and service records may be required. As the Australian distributor, Genelite reserves the right to repair or replace defective parts at its discretion.
